

UK Safer Internet Centre

www.saferinternet.org.uk

This site provides a range of resources and advice for how to help support your child in making safe choices online. Resources are also available which cater for children from 3 -19 years of age.

The QR code links to an interesting article called 'Power of Image' which shows how (and how much) children are using the internet. You can also find it by typing 'Power of Image 2017' into Google. You may be surprised by the findings!

Though some of this information may not yet seem to be relevant to primary school aged children, statistics show that younger children are online more than ever.

By starting discussions at a young age, parents and schools can work together to encourage and develop safe practice online.

The sites in this leaflet are only a few suggestions. There are many great resources online and you may find some to be more useful and relevant to you and your child than others.

Please remember: you are your child's first, best and most trusted teacher.

We have created this leaflet to share some useful information regarding Online Safety.

Our aim is to ensure that all of our children are able to demonstrate good practice and identify potential risks when online.

If you have any questions about the information in this leaflet or queries regarding Online Safety, please speak to a member of staff in school.

NSPCC NetAware

www.net-aware.org.uk

This website offers a clear breakdown of the key information parents need to know about social networking apps. This includes minimum-age recommendations and the potential risks associated with each. This site is especially helpful as it is mainly informed by parents and children.

parentzone.org.uk/parent-info

These sites are full of useful information on how to ensure your family is able to enjoy the benefits the internet can offer while staying safe online.

Topics covered include everything from how to set privacy controls on social media and games, to reviews of apps your child may be using or wanting to use.

Socialnomics 2017

www.youtube.com

Just how influential is social media in 2017? This video gives some idea of the enormous impact it is having on everyday life.

Scan the QR code or search 'Socialnomics 2017' on YouTube.

Thinkuknow

thinkuknow.co.uk/parents

This site is often used within school to help us teach Online Safety to your children. The parent section offers clear, easy-to-follow advice on keeping your child safe online and provides guidance on what to do if you do have concerns.
